Dear Sirs:

Your application for exemption from filing reports has been approved and your name withdrawn from our active file. No reports for periods subsequent to March 31, 1941 will be required. You are not relieved, however, from liability for reports or contributions for periods prior to that date, if any such have not yet been made.

We enclose a dummy copy of the approved application for your file. Please note that if you have employment and a payroll in New Jersey at a future date, you will be required to make reports and contributions to this Commission unless you have terminated coverage under the New Jersey Law.

In general, an employer who became subject in accordance with the automatic provisions of the Law is eligible to terminate coverage as of January 1 of a given year, if in the year immediately preceding there were not as many as eight individuals in covered employment for some portion of a day in each of twenty different weeks. To receive consideration, written notice of the intention of a subject employer to terminate coverage must be received by the Commission prior to January 5 of the year as of which termination is desired.

An employer who became subject by voluntary election is required to remain subject for at least two full calendar years before becoming eligible to terminate coverage. If termination is desired at that time, written notice to that effect must be received by the Commission at least thirty days prior to January 1 of the year as of which termination is desired.

Very truly yours,
